

UNDERSTANDING THE ORGANIZATION

POWER-CELL BATTERY PRODUCTS LLC, dba ZEUS Battery Products (The Organization) was founded in 2001 to provide a cost effective, comprehensive **BATTERY SOLUTIONS** using a combination of far east sourcing and in-house tailoring to meet customers' requirements. The organization has grown and developed moving to the current premises in 2006.

WE HAVE IDENTIFIED the interested parties and their requirements with the emphasis being on **QUALITY**. We have included a process to determine any legal requirements relating to activities, services that are relevant to the scope of our management system.

The Organization's use of specialist battery application and **CUSTOMER SERVICE ORIENTED MANAGERS** to evaluate customer requirements across a spectrum of design options often leads to improved product specification at reduced prices, **without sacrificing quality and fitness** for the intended application. Power-cell supports its manufacturing capability by a strong partnership with selected product, material, parts & service providers enabling a complete auditable service where application performance, delivery and product cost can be matched to each application.
